

Colorie les dessins où tu entends le son [p].

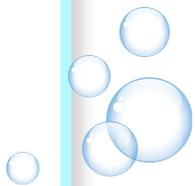

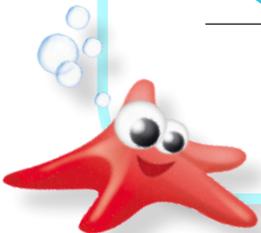

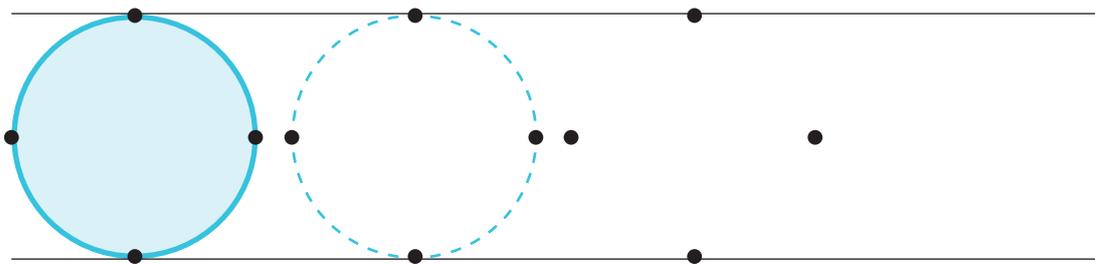

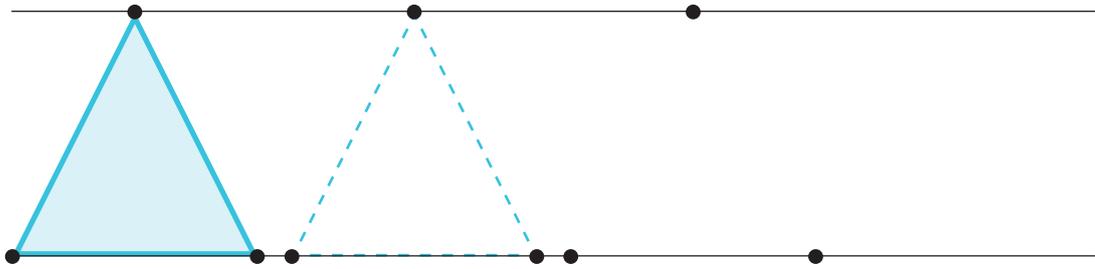

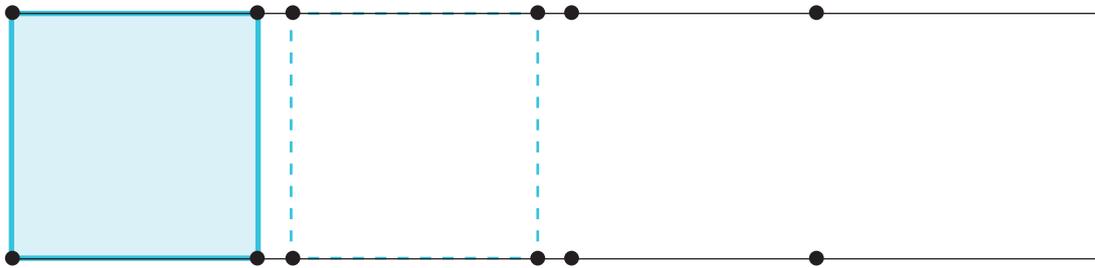

Avec ton index, montre et nomme les différentes parties du visage de la liste ci-dessous :

les oreilles - les joues - la bouche - les yeux - le nez

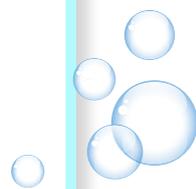

Trace les formes géométriques ci-dessous.

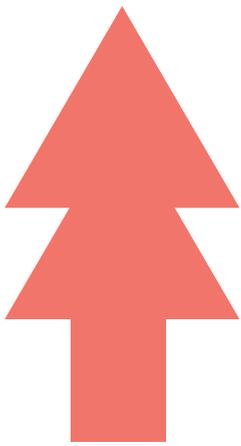

Prends un rouleau de papier WC ou d'essuie-tout. Tamponne des ronds sur l'illustration. Les formes deviennent des bulles.

Découpe les formes et amuse-toi à les arranger pour former différents dessins comme sur l'exemple !

Exemple : un sapin
